A DARK CONFESSION (please come here it's very important)

Here goes...
I guess it all started late 2015? Or early 2016, more likely the latter. It started out with Ivy, while i don't remember the numbers in that user name I know it was ivoryvampire. Of course I had no intention of her turning into a completely other persona, of course not. I was only nine you see, back then I can't seem to recall ever knowing what I was doing was wrong. Ivy started out as just a name, since I've always disliked mine. I only ever used her on the chat, since I hadn't discovered the forum. I would say Ivy was probably the least...successful of all if I may. I remember not making any friends, and I wasn't really happy with Ivy or who I was as her, though to be fair as Ivy I was myself just...with a different name, no lies..so it makes sense.
There comes in my second account, and most popular. Cyrus, more popularly known as blackfire900. Now again, when I made Cyrus I didn't have the intention of making anyone feel bad or making a web of lies, but I would say Cyrus's lies were the most extreme, from people who didn't even exist being..gone in brutal ways, to so many horrible other things. Cyrus had multiple relationships, who I won't name but I'm sure any amount of digging and you would be able to figure out their identities. Cyrus went as far as making multiple account on other sites, and even taking pictures from the internet so he could have a..face. To this day you can still find many of the accounts. I made Cyrus a sister and multiple friends, Vision, Paris, Casper, Soul and Jacob, all of who got their own accounts and personalities, and Jacob even got his own accounts on other sites as well, so did Cyrus's sister Max.
Now I could go on forever about all my experiences with these people or..personas, gosh I could write a whole book but honestly, while I am not, all of my personas were good people, and I'm not telling you guys about them may make you think that I myself, the..puppeteer am possibly a good person deep down, and I would have to politely decline your assumptions, because I know I'm not..this guilt has been weighing me down for a long time, and I'm not writing this just for you guys, I'm also writing this for myself because it was a few years of my life, and I can't simply act like it was never there.
If you've made it this far, thank you. Feel free to ask any questions, I'm an open book.

(Honestly Jim, I'm not so sure now is the best time for that ~~even though I 100% agree and apparently so does Gloomyice, LOL~~)

It's okay, Gloomyice! We've all made mistakes and done things we aren't proud of!
I just recently did this exact same thing with my friends IRL. I just switched to a different school than them, and started thinking about what it would be like this school year. I mean, I would only know a few people! Just the ones that switched with me (which I'm actually more excited about than I thought XD) and one senior. One.
But then I started thinking about the past 2 years at my old school. To be honest . . . I was kind of a frog-faced blob of camel spit WITH a fish brain! I wasn't honestly the best person I could be!
So I sent out a group email to them all. And do you know what happened then? They aren't as mad as I thought they would be. One of my friends replied, and I quote, "Girl, half of that stuff isn't even true!" Just admitting your mistakes means that you remember them and realize they were indeed mistakes. And you said it yourself! You were *nine*! You didn't know any better!
I forgive you. Even if others won't, I've got your back, kiddo. :)

@dragonmind254 Huh..I didn't really expect to get a if anything, positive reaction..um..well thank you a lot Drago. ANd yes, its a really toxic experience to lie about your life on almost an everyday basis, so talking about it is really.. uplifting I guess.
